Control is in the air 

Reduce waste
Increase efficiency
Boost productivity
...in your vehicle and fleet service shops

New NEX-U-[®] Pro with full wireless technology for vehicle and fleet service

NEX-U-[®] connectability and simplicity has been upgraded!!

KEEPING FLUID TRACK

BENEFITS OF USING A FLUID MANAGEMENT SYSTEM

MONITOR:

- Real time information about fluid transactions and inventory.
- Inventory management (refills schedule, alerts...)
- Automatic alerts.

CONTROL:

- Accuracy. · Reliability. · Safety.

TRACK:

- Account for every drop of lubricant or other vehicle service fluid used.
- No doubts about unfinished jobs or work orders.
- Reconcile fluid purchases and inventory with fluid sales and use.
- Supervise technician activity.
- DMS integration.

- Increased reliability and full track of fluid transactions.
- Improved productivity.
- Accurate billing.
- Reduce downtime costs.
- No tank stock-outs or spill-overs.
- No tank refill delays.

What is NEX-U-[®] Pro?

NEX-U-[®] Pro is a wireless fluid management system that provides the control and the information you require to make your operations more profitable. You will be able to account for every drop of lubricant or other service fluid used. On top of this, you will keep efficient inventory control, which includes automatic alerts and fluid reordering when needed, to eliminate operation downtime. Due to the high cost of lubricants and other service fluids, the NEX-U-[®] Pro investment is quickly paid back, regardless of shop size or fluid consumption.

Main NEX-U-[®] Pro components

U-track Software

- Create work orders
- Integrate with DMS
- Track your transactions
- Monitor Fluid Inventory
- Warning Alerts
- Produce data reports

U-tank module

- Monitor tanks level
- Avoid tanks running empty
